REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

After a further reviewing the applicant's remarks filed on 6/26/06, it is agreed that there is no motivation to combine the Stirton reference with Brill et al reference to lead to applicant's invention, especially, independent claims 1, 10 and 16. It is also noted that even though the references listed on the search report filed on 11/19/03 do not suggest modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 1, 10 and 16.

As to claims 1, 14, and 18, the prior art of record, taken alone or in combination, fails to disclose or render limitations **"forming, at a surface of a substrate, first and second reference patterns corresponding respectively to said first and second pattern components, said first pattern component being different from said second pattern component"**, **"measuring a reflection spectrum of a test pattern, measuring a reflection spectrum of said first reference pattern, and measuring a reflection spectrum of said second reference pattern"** and **"deriving, from said reflection spectra, information indicative of at least one parameter of the test pattern"**, in combination with the rest of the limitations of claims 1, 10 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
